-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

The applicant has cancelled all previously pending claims in the amendment dated 11/20/08 and added new claims 29-33. Pending claims 29-33 are examined below.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claims 29 and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,329,827 to Thorn.**

Regarding claim 29 and 31, Thorn discloses a panel with two flat outer sides, a plurality of partition walls (4) between the sides, the walls defining hollow volumes within, and at least one volume contains a solid rod (5), the panel inherently capable of making a non uniform frequency through the panel (see marked fig. below).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

**Claims 30, 32 and 33 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 4,329,827 to Thorn.**

Regarding claims 29 and 32, Thorn discloses a panel with two flat outer sides, a plurality of partition walls between the sides, the walls defining hollow volumes within, and at least one volume contains a rod, the panel inherently capable of making a non uniform frequency through the panel (see marked fig. 6). Also, Thorn discloses an embodiment of two panels connected to make one larger panel (marked figure below) which discloses at least two volumes adjacent with each other that both contain a solid (5) within.

It would be an obvious design choice to add a plurality of panels since they are shown in figure above and a mere duplication of working parts is common in the art.

Regarding claim 33, Thorn discloses the rod like members (5) as traversing, in a sectional view as shown above, in a perpendicular manner (left to right or right to left) from the walls which bound them.

### **Response to Arguments**

Applicant's arguments filed 11/20/08 have been fully considered but they are moot under new grounds of rejections necessitated by the applicants amendment.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Basil Katcheves whose telephone number is (571) 272-6846. The examiner can normally be reached on Monday-Friday from 7:30 am to 4:00 pm.
